

ZION CHURCH
SINGAPORE

TO WHOM IT MAY CONCERN

LETTER OF REFERENCE

It is with much enthusiasm that I am writing to recommend the services of Gridline Design Lab.

Gridline Design Lab has provided solution services for Zion Church that includes the main designs for the whole church. Throughout the project, Gridline has worked with us delivering cost-effective solutions and proposals catered to us without compromising on the budget and requirements of our image. They have always devoted designers to our project in ability to meet our tight schedule during the collaboration process.

Partnering with Gridline has certainly been fulfilling and a big pleasure. What was just imagery became a reality. I would highly recommend Gridline Design Lab to any business owner or company looking for an interior design and build company with established credentials and track records.

Yours Sincerely,

Sandra Yong
Zion Church Team
